

TECHNICOTE INNOVATIVE PRODUCTS

Dry Edge Label Materials

Technicote's line of Dry Edge products improves press speeds, decreases downtime and increases profit with our unique pattern-coating process.

 **Technicote**[®]

TECHNICOTE'S DRY EDGE LABEL MATERIALS

Unwanted adhesive transfer during the printing process is detrimental to both the final product and to equipment, causing unnecessary costs and downtime. To solve this issue, Technicote has developed Dry Edge technology. This unique line of label materials incorporates 1/8" adhesive-free edges to decrease bothersome ooze while increasing speed, productivity and efficiency.

DRY EDGE BENEFITS

Substrate Versatility: Patterned products can be used as a Dry Edge option across paper and film products.

Increased Uptime: Limited adhesive transfer allows for less down time for cleaning and maintenance.

Superior Efficiency: Labels created with Technicote Dry Edge materials replace traditional labels that require heavy adhesive coat weights.

Cost Effectiveness: Switching to Dry Edge materials requires no extra cost or pattern charges.

ITEM#	DESCRIPTION	AVAILABILITY
72122	2.3 MIL POLAR WHITE POLYPROPYLENE / AT333 / 40#SCK L-3	Custom Coat
72168	2.3 MIL POLAR WHITE POLYPROPYLENE / T5523 / 40#SCK L-3	Custom Coat
81061	2.0 MIL STORM CLEAR POLYPROPYLENE / T5523 / 40#SCK L-3	Custom Coat
972122	2.3 MIL STORM WHITE POLYPROPYLENE / T5523 / 40#SCK L-3	Custom Coat
75767	2 MIL CRYSTAL CLEAR POLYPROPYLENE / T5523/ 40#SCK L-3	Custom Coat
75511	2 MIL CRYSTAL CLEAR POLYPROPYLENE / AT333 / 40#SCK L-3	Custom Coat
86162	WHITE POLYPROPYLENE DT / AT333 / 40#SCK L-3	Custom Coat
6738	WHITE POLYPROPYLENE DT / T5523 / 40#SCK L-3	Custom Coat
78939	MAJESTIC WHITE POLYPROPYLENE / AT333 / 40#SCK L-3	Custom Coat
7923	MAJESTIC WHITE POLYPROPYLENE / T5523 / 40#SCK L-3	Custom Coat
793679	TECHNI-THERM III / T5523 / 40#SCK L-3	Custom Coat
798254	TECHNI-THERM III / AT333 / 40#SCK L-3	Custom Coat
88221	55# HIBRITE SEMIGLOSS / T5523 / 40#SCK L-3	Custom Coat

THE TECHNICOTE DRY EDGE ADHESIVE COVERAGE

Example below: 13" rolls have a 12.75" usable adhesive area (not to scale)

CUSTOMER SATISFACTION

"Moving a segment of our business into rapid-turn beer labeling provided us with some unique converting challenges. The soft and aggressive nature of the can label adhesive left us with many hours cleaning adhesive residue off pinch rolls, increasing maintenance downtime. That, coupled with the printing equipment design where access to critical areas for cleaning was difficult, made the switch to Technicote Dry Edge products a no-brainer. We can run two shifts and never have to stop due to adhesive migration on the rollers – getting nearly 15% more uptime. When the press operators notice we assigned Dry Edge to the ticket, they seem more energized!"

Andries Wagenaar
 Director of Ops,
 Cellotape Inc.
