

Approved IFCO Solutions for RPC Packaging

Technicote offers two approved IFCO items that will provide the best results for your customers needing RPC packaging solutions. Non-approved IFCO products may cause you to lose customers or see fines through the supply chain.

Only approved IFCO RPCs labels can reduce the cost in a retail supply chain by nearly \$1.00/case. Benefits include:

-  Improved freshness
-  Faster handling & easier storage
-  Less packaging damage

For more information about our IFCO RPC Packaging Products, contact your sales representative or visit technicote.com.
