

TECHNICOTE'S ENGINEERED INNOVATIONS

# PEEL AWAY

TM-65 ADHESIVE

## Get away clean. Every time.

Technicote's new TM-65 adhesive delivers an innovative line of products that are repositionable, removable and reusable.

 **Technicote**

Introducing Technicote's innovative TM-65 adhesive, a microsphere technology uniquely designed to provide a clean release without leaving residue on surfaces. This specially-engineered adhesive has ultra-removable and repositionable characteristics, working across a variety of film facestocks including vinyl, polypropylene and synthetic papers.

## FEATURES

- **Multi-Functional:** This single adhesive is extremely effective across multiple film facestocks including vinyl, polyester, polypropylene and synthetic paper making it easy to use across various applications
- **Application Variety:** TM-65 is effective on glass, semi-gloss paint, stainless steel, paper and acrylic paint for a variety of applications including direct mail advertisements, shelf labels, promotional labels and repositionable labels
- **Clean Removability:** Peel Away TM-65 delivers clean removability from multiple surfaces—even after being applied for a long period of time
- **FDA Compliant:** TM-65 complies with FDA 175.105 for indirect food contact
- **Cold Temperature:** Peel Away products are proven to work on colder environments with minimum service range of 20° F

## REMOVABLE TEST PERFORMANCE

Microsphere technology creates limited physical contact that results in easy removal and stable peel over time, outperforming other adhesives.

Microsphere Adhesive

Conventional Adhesive

## TM-55 Adhesive

- Additional microsphere adhesive for paper face stocks
- Includes multiple stocked items for quick delivery
- Technicote's item 78290 TM-55 application is approved by the United States Postal Service (USPS) for outside envelope purposes
