Tamper-Evident Matte Paper

Technical Specifications

Technicote's tamper-evident matte paper is a destructible material which provides visible evidence that tampering has occurred—by being partially destroyed—when an attempt is made to remove the label or to transfer the label to another product. This product is paired with our specially-formulated adhesives for secure adhesion and destructibility on substrates including low surface and high surface energy plastics, paper, corrugated, packaging films and glass. This product is also available with our special perm opaque adhesive allowing the product to provide a cover-up with tamper-evident benefits.

GENERAL INFORMATION

Type: Paper
Caliper: 2.65 mil
Opacity: 84.4%
Brightness: 89
Basis Weight: 42
Tensile: MD: 26 / CD: 26
Tear: MD: 40 / CD: 42

REGULATORY APPROVAL

The rise of counterfeit products are impacting brand owners, retailers and consumers on an everyday basis across the commerce, health and food & beverage industries. Tamper-evident labels are an effective way brands can prevent unauthorized access to packaging and Technicote's Tamper Guard products are leading the way. This matte paper, part of our larger Security Portfolio, helps combat counterfeiting and successfully keeps your customers' packages safe.

TAMPER GUARD BENEFITS INCLUDE:

Wide Variety: Tamper Guard Matte Paper is part of Technicote's larger security portfolio which includes products such as Tamper Evident Polyart and Acetate products.

Technical Expertise: Our technical team members are ready to help answer your questions that are related to security labels and find existing or custom solutions for your needs.

Many Applications: Tamper-evident labels are an important part of package security. Some of the most common applications using tamper-evident labels include:

- Pharmaceuticals
- Health & Beauty Aids
- Home Office & Food Delivery
- Over-The-Counter Drugs
- Warning Labels
- Meat Packaging
